NOW HIRING

Stone and Solid Surface Positions

- **Compensation: DOE** **Employment type: full-time** **Must be able to pass drug screen.**

ALL LEVELS NEEDED

We are a high production company both in solid surface and granite based in Sacramento and are looking to hire qualified, reliable help in both. We need qualified help installing and in the shop fabricating for both local and bay area work. We have a very high caliber customer base and average fabrication and installations are NOT acceptable. Your experience abilities and work ethics must be able to meet a high level of customer satisfaction. You must have pride in the work you do to work here.

WHAT WE CAN OFFER:

- Good pay. Pay depends on your experience level and level of craftsmanship.
- Benefits after 90 days of work. One of the best benefit packages around for you and your family, incl. a 401k plan.
- Safe working environment and a place you can call home if you have great workmanship.
- Prevailing wage rates on occasion.

WHAT WE WANT:

- Good solid employees with common sense and problem solving skills.
- Positive attitude and must be a team player.
- Hard working, self-motivated and honest.
- Reliable and punctual. Overtime and Weekend work are necessary on occasion.
- Must have own reliable transportation coming to work.
- Must have professional appearance and pride in workmanship.
- Must be able to lift heavy loads properly.

Additional helpful skills:

- The ability to read plans and drawings accurately.
- Knowledge of Auto CAD or experience with Alphacam.
- CNC experience.
- Clean valid driver's license.
- Ability to drive a forklift.
- Strong ability in measuring and inspecting the finished product.
- Cabinet making skills a plus.

We are looking for the following positions for both shops:

- Measure guy with LT-55 laser template experience
- Sander Polishers and laborers
- CNC Operator / CAD or knowledge of Alphacam experience a plus
- Saw Operator / both solid surface and stone shops
- Shop Engineer / All around utility person with troubleshooting skills and the ability to repair small electrical tooling, typical shop maintenance items such as air lines and possibly large CNC or Bridge saw machine troubleshooting a plus.
- Stone shop foreman
